

MO-6800D Series

Semi-dry-head, High-speed, Overlock / Safety Stitch Machine

■SPECIFICATIONS

Model name	MO-6804D	MO-6814D	MO-6816D	MO-6843D								
Stitch type	1-needle overlock	2-needle overlock	Safety stitching	3-needle safety stitching								
Stitch style in the U.S.A.	504	514	516	_								
Max. sewing speed		7,000sti/min*										
Stitch lengthpe		0.6~3.8(4.5)mm										
Needle gauge (mm)	_	- 2.0mm 3.0, 5.0mm 5.0+2.0mm										
Overedging width (mm)	4.0mm	2.0, 3.0, 4.0mm	4.0, 5.0mm	3.0mm								
Bottom differential feed ratio		Gathering 1:2 (Max. 1:4), S	tretching 1:0.7 (Max. 1:0.6)									
Needle bar stroke		24.5	imm									
Inclination angle of the needle		20)°									
Needle mechanism		Lower bush	ing method									
Needle		DC×27 (excluding so	ome subclass model)									
Max. lift of the presser foot		7mm (excluding sor	ne subclass model)									
Max. presser foot pressure		63.7N (6.5kgf)									
Stitch adjusting method		By push	n-button									
Differential-feed adjusting method		By lever (with m	icro-adjustment)									
Weight of the machine head		27	kg									
Lubrication	Automatic (The n	eedle bar mechanism and upp	er looper mechanism do not re	quire lubrication.)								
Lubricating oil	JUKI Machine Oil 18 (equivalent to ISO VG18)											
Needle cooler	Provided as standard											
Needle thread heat remover		Provided a	s standard									
Micro-lifter		Opt	ion									

^{*}sti/min is the abbreviation for "stitches per minute"

■WHEN YOU PLACE ORDERS

Please note when placing orders, that the model name should be written as follows:

Stitch	type	U.S.A	Code	Туре	Code	Device and attacl	nment	Code					
-needle ov	erlock	504	04	Semi-dry-head	D Tape attaching	presser foot (for se	ewing sharp curves) /	G44/Q					
-needle ov	erlock	514	14		Tape guide	Tape guide							
-needle sa	fety stitch	516	16		Latch for chang	Latch for changing overedging width

JUKI ECO PRODUCTS

The MO-6800D is an eco-friendly product which complies with JUKI ECO PRODUCTS standards for protecting the environment

• The sewing machine complies with the "Juki Group Green Procurement Guidelines" on the use of hazardous substances, which is stricter than other restrictions, such as those of the RoHS Directive. For details of JUKI ECO PRODUCTS, refer to: https://www.juki.co.jp/en/company/eco

2-11-1, TSURUMAKI, TAMA-SHI, TOKYO 206-8551, JAPAN PHONE: (81) 42-357-2370 FAX: (81) 42-357-2274

* Specifications and appearance are subject to change without prior notice for improvement.

* Read the instruction manual before putting the machine into service to ensure safety.

* This catalogue prints with environment-friendly soyink on recycle paper.

* Paper from responsible sources FSC™ C001712

MO-6800D Series

This model of sewing machine has been developed while inheriting JUKI's advanced "dry" technology. JUKI is happy to launch the product which responds to customers' concern about oil stains on the fabric.

JUKI's dry technology has been adopted for the MO-6800S which produces seams of delicate quality and feel as well as achieves excellent cost-effectiveness. This is a semi-dry head overlock machine with the dry mechanism which eliminates oil-splashing problem. As a result, oil stains on the sewn products are eliminated.

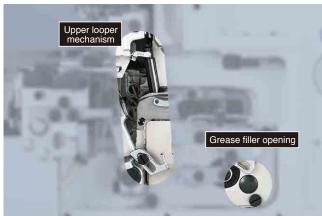

Oil stains on the sewing product are eliminated.

- Oil splashes are substantially reduced to eliminate oil stains on sewing products, thereby upgrading the finished quality.
- The frequency of stain removal or re-sewing is reduced.
- The machine achieves a practical maximum sewing speed of 7,000sti/min.

Cutting-edge dry technology for achieving a lubrication-free mechanism.

- The needle bar mechanism and upper looper mechanism have been re-designed to require no lubrication.
- The most-advanced dry technologies, such as the special surface treatment applied to the major drive unit and the grease feeding method, contribute to higher durability. The machine does not splash oil after a long-period of use. The grease filler openings are newly provided for the sewing machine on two locations, i.e., one on the upper looper component and the other on the sewing machine frame, thereby

DEVICES AND ATTACHMENTS

Model	Part No.	Description										
Chain-off thread trimming device												
T053	70000081	Pneumatic flat cutter										
T054	70000082	Pneumatic side cutter (for overlock machine)										

Pneumatic chain-off thread suction device

Model	Part No.	Pneumatic chain-off thread + cloth chips clutch motor	Air type auto-lifter	Clutch motor	Servo motor
